

Nestlé Waters North America In California

Nestlé Waters North America

LOCATIONS

Bottling plants in Cabazon, Ontario, and Sacramento. Nestlé Waters Direct production facilities in Livermore, Los Angeles.

Arrowhead® Natural Spring Water comes from carefully selected in California, and the brand has its roots in California's San Bernardino Mountains. These springs bubble up from earth and carry some of the world's most delicious spring water.

By 1894, the springs had gained quite a reputation, prompting one resourceful entrepreneur to begin bottling its crystal-clear water. Today, consumers reach for Arrowhead® Brand 100% Mountain Spring Water because it embodies all that is good about the mountains.

Nestlé Pure Life® Purified Water goes through a multi-step process of filtration that involves reverse osmosis and/or distillation, and is then enhanced with a unique blend of minerals to ensure great taste.

Creating Jobs and Investment in California

(As of 1/1/2014)

Nestlé Waters' respect for the environment, our stewardship of water sources and the land around them, and our commitment to being a good employer and a good neighbor, are all part of our mission in California.

- We are proud to turn a natural resource into **1,787 full time and seasonal good jobs** in California. Jobs at Nestlé Waters are clean, skilled and safe.
- Nestlé Waters spends **\$84.6 million annually on payroll**, with a full benefits package that includes health, dental, vision, tuition reimbursement, profit sharing, 401K, flexible spending health and dependent care accounts.
- We generate \$3.4 million in state employment taxes, which includes state employee income tax withholdings as well as unemployment insurance)
- We spend about \$114 million annually with California suppliers, distributors, and partners.

Company Profile

Nestlé Waters North America (NWNA) is the largest bottled water and third-largest nonalcoholic beverage company in North America by volume. Our product portfolio includes spring, purified, sparkling, drinking, distilled, mineral and flavored bottled waters sold through retail outlets and distributed directly to home and office delivery customers. We have the nation's largest refillable beverage delivery system, serving more than 1 million customers. Ready-to-drink tea, including naturally brewed and organic iced teas, joined our product line in 2011.

Headquartered in Stamford, Connecticut, NWNA has grown during the last three decades to include 7,500 employees and 29 production facilities throughout the U.S. and Canada.

NWNA manages more than 40 spring sites on more than 14,000 acres – all with regional heritages that we treasure and protect. NWNA was the first beverage manufacturer in the country to build a plant certified by the U.S. Green Building Council for Leadership in Environmental Efficiency and Design (LEED). Today, we have 10 LEED-certified facilities, encompassing 3.7 million efficient square feet.

NWNA is a subsidiary of Paris-based Nestlé Waters, the leading global bottled water company, which is a global business unit of the world's largest food company, Nestlé S.A., based in Vevey, Switzerland. Nestlé S.A. strives to be the world's best nutrition, health and wellness company and is the largest private funder of health and nutrition research globally. As a subsidiary, NWNA is not publicly traded. Its parent company, Nestlé S.A., is listed on the SWX Swiss Exchange under the symbol NESN.
